PROFESSIONAL SUMMARY

DevOps Engineer with **5+ years** of experience managing large-scale cloud infrastructures and CI/CD pipelines. Proven track record of reducing deployment times by 40% through automation and containerization. Passionate about reliability, scalability, and security in fully remote environments.

CORE SKILLS

- **Cloud Platforms:** AWS (EC2, S3, VPC, IAM, RDS, Lambda, CloudFormation)
- **Containerization & Orchestration:** Docker, Kubernetes (EKS, Helm, Istio)
- **CI/CD:** Jenkins, GitLab CI, GitHub Actions, ArgoCD
- **Operating Systems:** Linux (Ubuntu, CentOS, RHEL), Bash/Python scripting
- **Infrastructure as Code:** Terraform, Ansible
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer | CloudTech Solutions (Remote)

Jan 2022 – Present

- Designed and implemented AWS infrastructure using Terraform, supporting 50+ microservices.
- Built Kubernetes clusters (EKS) with automated scaling and rolling updates, reducing downtime by 25%.
- Created CI/CD pipelines with Jenkins and GitHub Actions, cutting release cycles from 2 hours to 20 minutes.
- Managed Linux-based servers, performed kernel tuning, and implemented security patches.

DevOps Engineer | DataFlow Inc. (Remote)

Jun 2019 – Dec 2021

- Migrated legacy on-prem workloads to AWS, saving 30% in operational costs.
- Containerized applications using Docker and orchestrated with Kubernetes (kOps).
- Automated deployment workflows with Ansible and GitLab CI, ensuring zero-downtime updates.
- Maintained Linux environments, troubleshooting performance issues and log analysis.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Administrator (CKA)
- Red Hat Certified Engineer (RHCE)

EDUCATION

B.S. in Computer Science – University of Technology, 2019
