Professional Summary

Data Scientist with 2.5 years of experience turning raw data into actionable insights. Proficient in Python (pandas, scikit-learn, PyTorch) and SQL. Built 4 production-grade ML models for customer churn and demand forecasting.

Core Skills

Python (pandas, NumPy, scikit-learn, TensorFlow)

SQL (PostgreSQL, BigQuery)

Machine Learning (regression, classification, clustering)

Data visualization (Matplotlib, Seaborn), Jupyter, Airflow

Experience

Data Scientist | RetailAI (Remote)

Jun 2022 – Present

Developed a gradient-boosting model to predict inventory demand, improving stock accuracy by 22%.

Wrote complex SQL queries to extract and join data from 5+ internal databases for feature engineering.

Deployed ML pipelines using Python and scheduled automated retraining workflows.

Education

M.S. in Data Science – University of Michigan, 2022
