Education

Karunya University , Coimbatore	Aug 2023 – Present
Bachelor of Technology - Artificial Intelligence and Data Science	
Veveaham Prime Senior Secondary School	Jun 2021 – May 2023
Senior Secondary (XII), CBSE - Computer Science	

Skills Summary

AI/ML: Python, TensorFlow, PyTorch, Scikit-learn, NLP, LangChain, Ollama, HuggingFace
Languages: JavaScript, TypeScript, Golang, Dart, SQL, Bash
Frontend: HTML, CSS, ReactTs, Astro.js, NextJS, Tailwind CSS, Bootstrap, ShadCN, jQuery
Backend: Node.js, NestJS, Django, FastAPI, Flask, Golang, Laravel, Spring Boot
Databases: MySQL, PostgreSQL, MongoDB, Redis, SQLite, ChromaDB
DevOps: Docker, AWS, GCP, Azure, Linux, CI/CD, Nginx, Kubernetes
Tools: Git, GitHub, Jenkins, Terraform, Ansible, Prisma, Postman, VS Code, Streamlit, OpenRouter
Core: REST APIs, GraphQL, Microservices, WebSockets, RAG Pipelines, System Design

Experience

DotDev Club - Student Coordinator	Aug 2025 – Present
Karunya University	
- Conducted technical workshops on software development, AI/ML, DevOps, and cloud technologies training 100+ students. - Designed hands-on learning modules covering full-stack development and system design.	
SayvAI - Software Developer Intern	May 2025 – Nov 2025
Remote	
- Built backend modules powering AI-driven garment customization workflows. - Integrated 3D visualization and multi-service orchestration into an automation pipeline.	
KarunyaHacks - Software Developer	Aug 2024 – Feb 2025
Karunya University	
- Developed backend infrastructure for automated monthly report generation. - Led development of Mindkraft 2025 platform handling 1000+ registrations.	
Zelerious - Junior Software Developer Intern	May 2024 – Sep 2024
Remote	
- Co-developed Zukify API testing platform using React, Golang, and MySQL. - Implemented payload parsing, environment configuration, and response rendering.	
Nandha Infotech - Backend Developer Intern	Jun 2024 – Jul 2024
Coimbatore, India	
- Developed REST APIs improving backend performance for crop-management dashboards. - Assisted production deployment and improved UI responsiveness.	

Projects

- **DevOps Assistant Chatbot (GenAI, DevOps Automation):** Built a DevOps chatbot using Open WebUI with automated deployment pipelines through Ansible and Terraform.
Tech: Open WebUI, Ansible, Terraform, Jenkins, Python, Docker (Dec 2025)
- **Cratoss - IoT Domain Chatbot (RAG):** Developed an IoT troubleshooting chatbot using Retrieval-Augmented Generation for contextual responses.
Tech: Python, LangChain, Vector DB, FastAPI, ReactTS (2024)
- **R.U.L.E - Resume Understanding Engine (NLP):** Built an NLP pipeline extracting structured resume data and generating ATS-ready insights.
Tech: ReactTS, Python, FastAPI, spaCy, Openrouter (Jun 2024 – Nov 2024)

Achievements

- **DotDev Club - Student Coordinator** – Recognized for leading technical workshops and training **100+ students** in software development, integration of **AI/ML and DevOps**. (Aug 2025 – Present)
- **Appreciation Certificate** – Led web development team for **Mindkraft 2025 (mindkraft.org.in)**, successfully deploying platform handling **1000+ registrations**. (Feb 2025)
- **Runner's Up** – **Nexus Hackathon** for innovative solution development. (Mar 2024)
