Professional Summary

Backend Engineer with 4 years of experience designing, developing, and maintaining scalable web applications and distributed systems. Skilled in building RESTful APIs, optimizing databases, and deploying cloud-native applications. Strong understanding of microservices architecture, system design, and performance optimization.

Professional Experience

Backend Engineer

TechSphere Solutions | July 2022 – Present

- Developed and maintained microservices using Java and Spring Boot.
- Designed REST APIs serving over 100,000 daily requests.
- Implemented Redis caching, reducing average response times by 40%.
- Integrated Apache Kafka for asynchronous event processing.
- Managed deployments using Docker, Kubernetes, and AWS.
- Collaborated with frontend and DevOps teams to deliver new product features.

Software Engineer

ByteWorks Technologies | June 2020 – June 2022

- Built backend services for financial technology applications.
- Optimized SQL queries and database indexing strategies.
- Developed authentication and authorization modules.
- Participated in code reviews and Agile development processes.

Education

Bachelor of Technology in Computer Science
National Institute of Technology Surat
2020

Technical Skills

- Programming: Java, Python
 - Frameworks: Spring Boot
 - Databases: PostgreSQL, MySQL, Redis
 - Cloud: AWS
 - Tools: Docker, Kubernetes, Git, Kafka
 - Concepts: REST APIs, Microservices, CI/CD
-
