Professional Summary

Data Analyst with 3 years of remote experience transforming complex datasets into executive dashboards. Skilled in SQL (window functions, CTEs), Python (pandas), and PowerBI. Delivered 20+ interactive reports for sales and operations teams.

Core Skills

SQL (MySQL, PostgreSQL, Snowflake)

Python (pandas, matplotlib, Jupyter)

PowerBI (DAX, Power Query, dashboard design)

Excel (advanced), data cleaning, ETL, storytelling

Experience

Data Analyst | GlobalRetail Group (Remote)

May 2022 – Present

Built a centralized PowerBI dashboard tracking 30 KPIs across 5 regions, used by 50+ managers daily.

Wrote complex SQL queries to aggregate 5M+ transactional rows for weekly sales reports.

Used Python to automate data-cleaning routines, saving 10 hours of manual work per week.

Education

B.A. in Economics & Statistics – UC Berkeley, 2021
