Professional Summary

Backend Engineer with 3 years of experience building RESTful APIs and microservices. Specializes in Node.js and Express with MongoDB (Mongoose). Passionate about clean code, database optimization, and seamless hybrid collaboration.

Core Skills

Node.js, Express.js, NestJS

MongoDB, Mongoose, Redis

REST API design, JWT authentication, WebSockets

Git, Docker (basic), Postman, Swagger

Experience

Backend Developer | FinTech Labs (Hybrid)
Mar 2023 – Present

Designed and maintained 15+ RESTful endpoints using Express and MongoDB, serving 10k+ daily users.

Optimized MongoDB aggregation pipelines, cutting average query response time by 35%.

Collaborated with frontend teams in an agile hybrid setup, delivering sprint releases every two weeks.

Education

B.S. in Software Engineering – San José State University, 2022
